AI In Real Estate Global Market Report 2025

## Key Insight

The question isn't *if* you'll use AI agents, but *when* and *how effectively*.

# What Are AI Agents?

**Definition:** Systems that perceive, decide, and act autonomously to achieve goals

## Key Capabilities:

- **Observe:** Monitor data sources continuously
- **Plan:** Create multi-step strategies
- **Act:** Execute tasks across systems
- **Learn:** Improve from outcomes

### Not Just Chatbots!

AI agents go beyond Q&A to actively manage complex workflows

# AI Tools vs. AI Agents

Aspect	Basic AI Tools	AI Agents
Capability	Text generation only	Goal-oriented task completion
Decision	None	Autonomous decision-making
Tool Usage	Cannot use external tools	Uses APIs, databases, services
Workflow	Single-step responses	Multi-step, complex workflows
Example	ChatGPT answering a question	Agent qualifying leads, updating CRM, sending emails

# Real Estate Example: Lead Qualification

## Basic AI Tool:
